

**We have continued to expand and evolve our business to optimise operations and improve efficiency so you receive comprehensive solutions tailored to your specific commercial or residential projects.**

**Welcome to the family:**

City Central Contracts (CCC), established in 2013, specialises in commercial and residential refurbishments, as well as commercial painting and decorating. Over the years, the company has expanded its services by adding two specialised divisions:

- Drylining, Ceilings & Fire Stopping
- Plumbing & Heating

The company operates under a unified structure with distinct divisions. The core company trades as **City Central Contracts**, while drylining services are delivered through **City Central Contractors** and plumbing and heating services are offered through **CCC Plumbing and Heating**. This integration is the result of a strategic merger with new partners, combining expertise to create a streamlined and efficient organisation.

## OUR COMBINED SERVICES INCLUDE:

### Refurbishments

Up to £3 million

### Drylining

Up to £3 million

### Painting and decorating

Up to £2 million

### Fire stopping

Up to £1 million

### Roofing

Up to £1 million

### Plumbing and heating

Up to £2 million

### Site Setup

By 2025, the combined turnover of all three divisions is projected to exceed £8 million. A key strength of City Central Contracts is its in-house operations, minimizing reliance on subcontractors and ensuring quality control across all projects. Dedicated contract managers and directors—who are also partners and associates—foster a sense of ownership, ensuring every project is handled with care and accountability.

The company prides itself on a client-focused, user-friendly approach, delivering exceptional service with a personal touch. Whether handling refurbishments, drylining, painting or plumbing projects, City Central Contracts is committed to delivering the highest quality and perfection in execution, making us a trusted partner in the construction industry.
